

MAYOR OF THE DISTRICT OF COLUMBIA

NOTICE OF FINAL RULEMAKING

The Mayor of the District of Columbia, pursuant to section 204 of the Procurement Practices Act (D.C. Law 6-85, D.C. Code section 1-1182.4), hereby gives notice that final rulemaking action was taken to adopt the following amendments to section 2005.6, section 2005.7 and section 2099 of chapter 20 of Title 27 DCMR, "Contracts and Procurement Rules." The text of the proposed rules was published with the Notice of Proposed Rulemaking in the D.C. Register on October 18, 1991, at 38 DCR 6393. No comments were received concerning the proposed rules. No changes have been made to the text of the proposed rules, as published with the Notice of Proposed Rulemaking in the D.C. Register on October 18, 1991 at 38 DCR 6393. Pursuant to D.C. Code section 1-1192.6, these rules were subject to a 60 day period of review by the Council of the District of Columbia. The Council took no action to disapprove the proposed rules during that period. Final rulemaking action was taken by the Mayor on JAN 25 1994. These final rules will be effective upon publication of this notice in the D.C. Register.

Chapter 20 SPECIAL CONTRACTING METHODS

Amend sections 2005.6 and 2005.7 to read as follows:

2005.6 The basic period in a contract for services or supplies shall not exceed one (1) year, unless the contract is funded from an appropriation that is available for more than one (1) year. The total of the basic and option periods in a contract for services or supplies shall not exceed five (5) years; provided, however, the total of the basic and option periods for any contract for city-wide telecommunications systems may exceed five years but shall not exceed ten years.

2005.7 The total of the basic and option quantities in a contract for supplies shall not exceed the requirement for the basic and option periods, unless otherwise authorized by law.

Amend section 2099.1 to add the definition of "city-wide telecommunications systems" to read as follows:

2099.1 City-wide Telecommunications Systems - voice and data networks consisting of not fewer than 25,000 station terminations.
